

Dr. Cambone is the Associate Vice Chancellor for Cyber Initiatives for the Texas A&M University System and is Professor of Practice for the College of Engineering and Adjunct for the Bush School of Government and Public Service at Texas A&M University.

He began his career at Los Alamos National Laboratory and has served in senior positions in both the private and public sector. His private sector experience includes P&L responsibility for a \$500m line of business for QinetiQ North America, serving national security and intelligence community clients.

His public-sector experience includes senior positions in the Department of Defense (DOD) from 2001-2006, including serving as the first Undersecretary of Defense for Intelligence (USDI) with oversight of the DOD's intelligence organizations and capabilities. As Director of Program Analysis and Evaluation he was responsible for cost and performance analyses across land, sea, air and space programs. As the Principal Deputy Undersecretary of Defense for Policy, he exercised oversight of DOD's contingency plans.

Dr. Cambone's awards include DOD's Distinguished Service Medal, presented by the Secretary of Defense, and the National Intelligence Distinguished Service Medal, presented by the Director of National Intelligence. Dr. Cambone has taught as an adjunct professor at Villanova University and Johns Hopkins University.

He serves on the advisory boards of non-profit organizations and as a member of the Government Security Committee of board overseeing the US operations of Elbit Systems of America.

Dr. Cambone received his M.A. and Ph.D from Claremont Graduate School and his B.A. from Catholic University.
